

Drum, IBC, Tote & Pail Washers

PRI RotaJet offer a series of combined drum, IBC, tote and pail washers used for decontamination of IBC's prior to disposal, or cleaning for in house production.

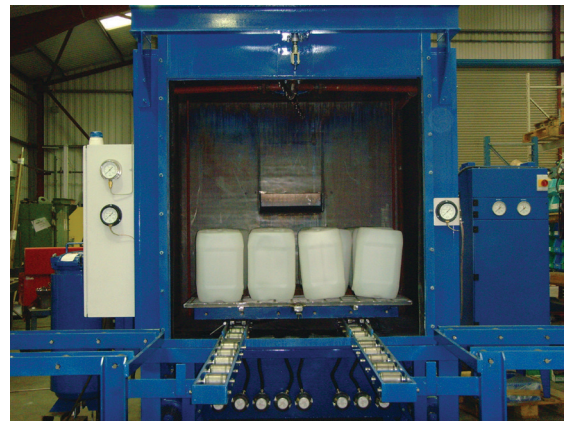

The washers use a variety of different nozzles depending upon the application. Systems are designed to deliver the highest degree of efficiency and safety. The modular nature of the machines allows customers to increase capacity by adding additional units. The machines can be manufactured to wash, rinse and dry containers both inside and out.

Features:

- modular, batch system for easy expansion
- flexible system to handle IBC's, totes or pails
- automatically wash, rinse and dry
- cleans both inside and outside
- batch systems can process up to 48 IBC's, 192 drums, or 960 pails per 8 hour day
- continuous systems can process up to 200 IBC's per 8 hour day
- efficient, safe for operators

Cleaning Agents:

- detergent and water
- alternative "green" solvents
- caustic solutions
- flammable solvents

Drum, IBC, Tote & Pail Washers

D40 - DW

Items Cleaned	Parts / Hour
5 gallon pails	54
55 gallon drums (open top)	6
Machinery Parts	29 inches long

D40 - DWF

Items Cleaned	Parts / Hour
5 gallon pails	54
55 gallon drums (open top)	6
55 gallon drums (closed top)	6
Machinery Parts	29 inches long

D60 - DW

Items Cleaned	Parts / Hour
5 gallon pails	120
55 gallon drums (open top)	24
Mixing Pan	6
Machinery Parts	49 inches long

D60 - DWF

Items Cleaned	Parts / Hour
5 gallon pails	120
55 gallon drums (open top)	24
55 gallon drums (closed top)	24
Mixing Pan	6
Machinery Parts	49 inches long

CONTINUOUS SYSTEM LAYOUT:

Can process 100 - 200 IBC's per 8/hr day
